Annual Report of JSC "Zhasyl Damu"

24

www.recycle.kz @zhasyl_damu ao.zhasyl.damu

Address by the Chairman of the Board of Directors

Chairman of the Board of Directors
of JSC "Zhasyl Damu,"
Vice Minister of Ecology and
Natural Resources of the Republic
of Kazakhstan
N. Sharbiev

Dear Ladies and Gentlemen!

On behalf of the Board of Directors and the Shareholder, I welcome you and present the Annual Report of the joint-stock company "Zhasyl Damu" for the year 2024.

The outgoing year has been a significant milestone for JSC "Zhasyl Damu" in the implementation of tasks aimed at improving the ecological situation in the country and developing the waste management system.

One of the priority areas remains the implementation of the extended producer responsibility principle. In 2024, the EcoQolday program was resumed, with 56 companies starting to participate.

In 2024, the integration of payment for disposal fees with the People's Bank of Kazakhstan was successfully completed, significantly simplifying the payment procedures. We hope that other banks will follow this example.

Through joint efforts of the shareholder and the professional team of Zhasyl Damu, a three-year program for the construction and modernization of waste collection and recycling plants in the regions of the Republic of Kazakhstan has been launched

The financial results for the reporting year also show stable growth:

•The company's net profit amounted to 37.5 billion tenge;

•Tax payments to the state budget totaled 41 billion tenge, and dividends amounted to 26.2 billion tenge.

I would like to thank all the employees, partners, industry representatives, and government agencies for their contribution to our common cause

Address by the Chairman of the Management Board

Chairman of the Management Board
JSC "Zhasyl Damu"
E. Sarsenbay

Dear Partners and Colleagues!

The year 2024 has been a year of systematic strengthening of JSC "Zhasyl Damu's" position in the field of ecological transformation, the development of sustainable development tools, and the improvement of waste management mechanisms.

We continued the implementation of large-scale projects aimed at fulfilling Kazakhstan's international obligations under the Paris Agreement and the Kyoto Protocol. JSC "Zhasyl Damu" has prepared and presented a two-year transparency report, as a result of which Kazakhstan was recognized by global experts as one of the champions in the quality of climate reporting preparation.

I would like to pay special attention to the resumption of the EcoQolday program in 2024. I would like to express my gratitude to the companies that participated in this program.

Together with the Ministry of Ecology and Natural Resources, projects for the construction and modernization of infrastructure facilities for waste collection, sorting, and recycling have been selected. These projects will be co-financed by disposal fees.

In 2024, 56 projects were approved by the Investment Headquarters, and this list is continuously being updated.

As part of promoting environmental culture, in 2024, events were held in two national parks: "Kolsai Lakes" and "Sharyn." In 2025, we plan to hold similar events in seven state national parks.

The financial and operational results demonstrate sustainable development, which is detailed in this annual report.

I express my gratitude to the team of JSC "Zhasyl Damu," our partners, government agencies, businesses, and the public for their support.

About the Company

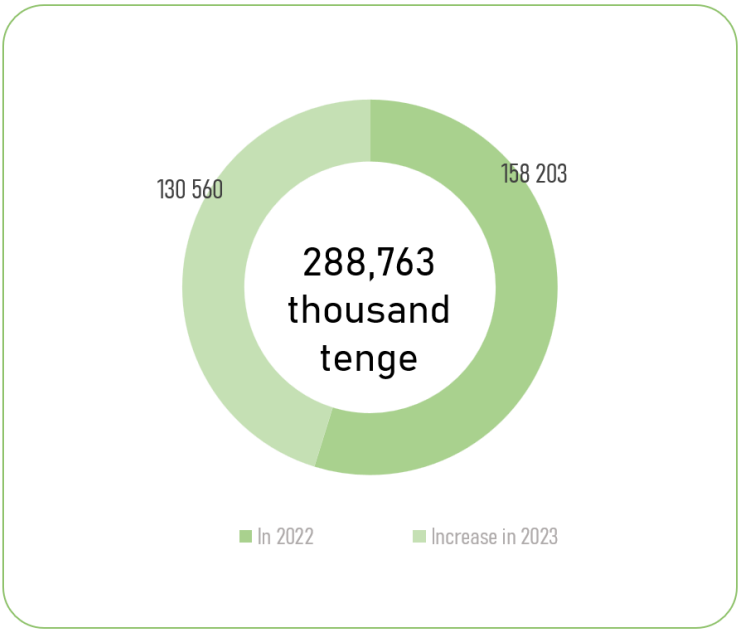

Equity (Shareholder's Capital)

On **January 6, 2023**, by the order of the Committee for State Property and Privatization of the Ministry of Finance of the Republic of Kazakhstan No. 9, **the increase of the shareholder capital by 130,560** thousand tenge was announced. As part of this order, 100% of the participation share of LLP "EPR Operator" was transferred as payment for the company's shares. In 2024, there were no changes

Number of Shares

"On December 15, 2022, the Agency of the Republic of Kazakhstan for Regulation and Development of the Financial Market registered the issuance of the Company's authorized shares in the amount of 1,000,000 common shares with a par value of 1,000 tenge (Registration Certificate No. 0000408, Series C, ISIN code – KZT1C00006980)"

The sole shareholder of the Company is the state, represented by the **Ministry of Ecology and Natural Resources of the Republic of Kazakhstan.**

Mission, Vision, and Strategic Directions

The Company's Development Strategy for 2023-2027 was approved by the decision of the Board of Directors on November 24, 2023.

01

MISSION

To support the implementation of the state environmental policy aimed at creating conditions for the development of an integrated waste management system, including initiatives related to the development of a circular economy.

02

VISION

An open organization to society, ensuring the accelerated transition to production, distribution, and consumption methods that preserve the environment.

03

STRATEGIC DIRECTIONS

- Improvement of the waste management system for products (goods) covered by extended producer responsibility (EPR)
- Development of environmental culture in society
- Enhancement of the Company's operational activities

Vehicles and Agricultural Machinery for which the disposal payment was made in 2024, units.

ЖАСЫЛ ДАМУ

A total of 328,978 certificates of disposal payment for vehicles and agricultural machinery, imported and produced within the country, have been issued.

In 2024, all applications were submitted through the information system app.recycle.kz.

By the order of the Ministry of Ecology, and Natural Resources (MENR) dated November 9, 2022, No. 689, the List of certain types of products (goods) produced in the Republic of Kazakhstan and/or imported into the territory of Kazakhstan by individuals and legal entities, for which the collection, transportation, preparation for reuse, sorting, processing, recycling, disposal, and/or disposal of waste generated after the loss of consumer properties of such products (goods) are ensured, has been approved.

Greenhouse Gas Emissions Trading System in the Republic of Kazakhstan

ЖАСЫЛ ДАМУ

The Republic of Kazakhstan signed the Paris Agreement on August 2, 2016, and ratified it on November 4 of the same year. All Parties to the Paris Agreement have their own obligations to reduce greenhouse gas emissions. Kazakhstan has set an ambitious unconditional target — to reduce greenhouse gas emissions by 15% by 2030 compared to the 1990 level

According to the National Greenhouse Gas Inventory, emissions decreased **by 8.49% from 1990 to 2022** (excluding the LULUCF sector, the reduction was 10.67% compared to 1990)

In 2024, the following activities were carried out to support the greenhouse gas emissions trading system in the Republic of Kazakhstan:

- Technical and consultative support was provided to the authorized body on the implementation of the Kyoto Protocol to the UN Framework Convention on Climate Change.
- Calculations were made for the removal of carbon quota units and an analysis of the production volumes of products from capped installations in 2023 for the purpose of removing carbon quota units.
- Analytics on the distribution of quotas for 2023 within the framework of the National Plan for 2022–2025 was prepared. Data on additional quotas is available on the official website of the Company.
- Work was carried out on the implementation of the budget program 038 "Greenhouse Gas Emissions Reduction," subprogram 100 "Services for the Implementation of the UN Framework Convention on Climate Change and the Kyoto Protocol."

Formation and maintenance of the State Register of carbon units.

The main functions of the State Register of carbon units are to ensure accurate accounting of carbon units that have been issued, are in storage, transferred, acquired, reserved, blocked, canceled, redeemed, removed from circulation, as well as data exchange with other national registries.

In 2024, the total number of carbon quotas transferred for redemption was 152,684,050 units.

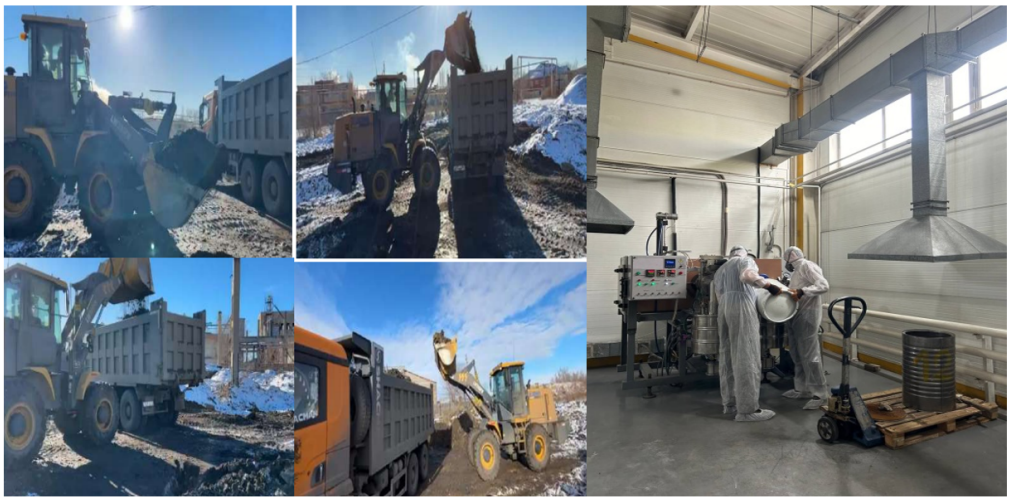

One carbon unit is equal to 1 ton of CO2-equivalent.

Throughout 2024, the following operations were carried out to form and maintain the State Register of carbon units:

- Additional volumes of carbon quotas were credited to the accounts of installation operators: 65 installation operators.
- Accounts were opened for new operators, and the initial crediting of carbon quotas was carried out.
- Carbon quotas (carbon units) were redeemed by quota subjects for the year 2023. During the reporting period, operations were carried out in the Registry to remove carbon units from circulation by writing them off from the corresponding quota subject's account and crediting them to the redemption account in the Registry. These operations were conducted taking into account the receipt of additional carbon quotas, the redistribution of carbon quotas between their installations, and the acquisition of carbon quotas on the secondary carbon market.
- The transfer of carbon units between the accounts of installation operators was carried out based on the results of the trading: 43 transactions were concluded.
- The transfer of carbon units between installations was carried out.
- Procedures for the removal of carbon quotas from 126 installation operators were carried out.
- Consultative support was provided to the users of the State Register.

Management of ownerless hazardous waste

ЖАСЫЛ ДАМУ

As part of the implementation of the government procurement contract for the disposal and/or removal of ownerless hazardous waste (chemical waste, materials, reagents, raw materials) under budget program 037 "Stabilization and Improvement of Environmental Quality," subprogram 103 "Elimination of Natural and Technogenic Pollution," the following activities were carried out:

- Disposal and/or removal of 992 tons of ownerless hazardous waste (including sludge-bound waste)
- Laboratory research and determination of the environmental impact of 13 types of hazardous waste, totaling 10.89 tons, with an indication of their estimated value.

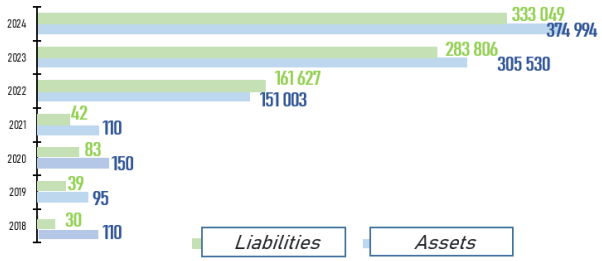

Operational and Financial Performance

Based on the results of 2024 :

The net profit amounted to more than 37.5 billion tenge. 67.2 billion tenge was transferred to the national budget, including:

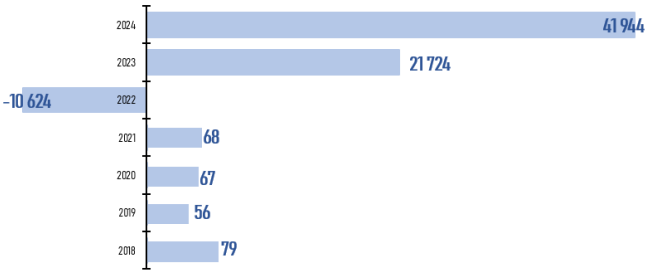

- Corporate income tax (CIT) of more than 41 billion tenge
- Dividends of more than 26.2 billion tenge

Dynamics of Asset and Liability Changes, million tenge

The volume of the Company's consolidated assets reached 333,049 million tenge, increasing by 17.4% compared to the previous year

Dynamics of Equity Changes, million tenge

Consolidated liabilities amounted to 41,944 million tenge, an increase of 93% compared to 2023. This growth was made possible through effective asset and liability management, as well as the restoration of financial stability after 2022, when negative equity was due to the temporary excess of obligations transferred from LLP "EPR Operator" over its assets.

Key Significant Events and Achievements

Kazakhstan was recognized by global experts as the world champion in BTR.

February

Resumption of the EcoQolday Program.
A mobile application was developed for user convenience.

April

Inclusion in the Register of Special Rights for the Management of Historical Waste
Issuance of the Annual Financial Report for 2024

July

Loan granted to the JSC (IDF) in the amount of 120.5 billion tenge.
Specialized equipment was acquired through disposal payments for organizing the prevention of forest fires and their extinguishment by forestry institutions and environmental organizations, as well as for the maintenance of republican highways and passenger transport services.

September

LLP "Operator EVCS" was reorganized by merging with LLP "Operator EPR".

November

At the 29th Conference of the Parties to the UNFCCC, Kazakhstan presented the Biennial Transparency Report (BTR1).

December

The testing center SertSoft conducted successful tests for compliance with information security requirements for "EcoQolday.kz" and "App.recycle."

Goals and Plans for Future Periods

- Project financing under the Government Decree of the Republic of Kazakhstan No. 604 dated September 2, 2021.
- Preparation of projects for the National Report for 1990-2023, the carbon budget, and the National Carbon Quota Plan for 2026-2030.
- Preparation for the implementation of carbon credit auctions, provision of technical expert assistance in the implementation of the World Bank's Project Management Institute project
- Conducting an international review of the national greenhouse gas inventory; launching a monitoring network to assess greenhouse gas sink potential
- Participation in the 30th Conference of the Parties (COP 30)

  "Implementation of the Agreement with the Regional Center of the Stockholm Convention 'RECETOX' under the project 'Review and Update of the National Implementation Plan for the Stockholm Convention on Persistent Organic Pollutants'
- Continuation of work on the implementation of the project to develop eco-culture in 7 state national natural parks

Returnable financing for the acquisition of special equipment*

ЖАСЫЛ ДАМУ

117 billion tenge

				
	Procurement of special-purpose equipment to upgrade the technical fleet of the Ministry for Emergency Situations of the Republic of Kazakhstan and the Ministry of Water Resources and Irrigation of the Republic of Kazakhstan	Bus leasing to renew the bus fleet	Procurement of firefighting equipment for forestry institutions to prevent and extinguish forest fires	Procurement of special-purpose equipment for the maintenance of roads of republican and international significance

*Within the amendments dated 7.03.2024 to the Resolution of the Government of the Republic of Kazakhstan No. 604 dated 2.09.2021.
As of 31.12.2024, the full amount of 117 billion tenge has been transferred to JSC "IDF"

Returnable financing of waste sorting, processing and recycling projects *

5.8 billion tenge

Purpose of the loan	Financing of waste sorting, processing and recycling projects
Project cost	5.8 billion tenge
Loan terms	Term: 15 years Rate: 0.1% per annum
Financing/leasing terms	Term: 3 to 15 years Rate: 3.0% per annum Down payment: at least 20% (including 10% in cash)
Expected result	Capacity increase in: Waste sorting Waste processing Waste recycling

*Within the amendments dated 7.03.2024 to the Resolution of the Government of the Republic of Kazakhstan No. 604 dated 2.09.2021.
The total amount of financing for 2024-2026 is 185 billion tenge, including: JSC "Zhasyl Damu" – 3.54 billion tenge, investors – 2.43 billion tenge.

Risk management system

The Company's risk management process is an integral part of its corporate culture and plays an important role in making strategic, managerial and investment decisions.

Depending on the factors of occurrence, the Company's risks are classified into the following categories, including:

strategic	– risks of incurring losses due to changes or errors (deficiencies) in defining and implementing the Company's development strategy, changes in the political environment, regional market conditions, industry downturns and other external systemic factors
environmental	– probability of failure to achieve the Company's key objectives and of incurring loss of income or losses due to adverse changes in the environment – risks associated with the Company's capital structure, financial condition, exchange rate fluctuations and interest rate fluctuations, etc.
financial	– risks of incurring losses due to deficiencies or errors during internal processes, mistakes made by employees (including personnel risks), malfunctioning of information systems and technologies (technological risks), as well as due to external events
operational	
legal	– probability of loss of income, incurring losses or legal claims as a result of non-compliance by the Company or its counterparty with the laws of the Republic of Kazakhstan, and in relations with a non-resident of the Republic of Kazakhstan – the legislation of its country of origin, as well as breach of contractual obligations

Deputy Chairman of the Management Board, JSC "Zhasyl Damu"

ERNAZAR SH.ZH.
Deputy Chairman of the Management Board, JSC "Zhasyl Damu"

In 2024, the Management **Board held 61 meetings** and **considered 315 issues.**

Effectiveness of HR Management

As part of strengthening corporate culture, measures were taken for non-monetary incentives for the Company's employees.
By June 5 — World Environment Day, the following employees were awarded:
- Badge "Excellence in the Field of Ecology" (3 recipients)
- Certificate of Honor from the Minister of Ecology and Natural Resources of the Republic of Kazakhstan (3 recipients)
- Letter of Appreciation from the Minister of Ecology and Natural Resources of the Republic of Kazakhstan (3 recipients)

ЖАСЫЛ ДАМУ

In 2024, final surveys were conducted to assess the level of employee engagement and satisfaction within the Company using the Headhunter platform.

86% **Employee Engagement Index**

According to the interpretation of results in Appendix 3 to the Guide, a score of 80–100% is considered a high level of employee engagement. Employees in this category typically feel a strong commitment to the company, are motivated to achieve goals, and derive satisfaction from their work. They actively participate in the company's activities, are willing to propose ideas, and strive for better results.

81% **Employee Satisfaction Index**

According to the interpretation of results in Appendix 3 to the Guide, a score of 80–100% is considered a high level of employee satisfaction. Employees are fully satisfied with their work and the conditions in which they perform it. This may indicate a strong corporate culture, high motivation, and a good level of trust within the team.

Sustainable Development of the Company

The Company ensures the alignment of its economic, environmental, and social objectives to achieve sustainable development over the long term.

The Company also declares its commitment to the principles of the United Nations Global Compact in its operations.

In its operations, the Company is guided by the following principles of sustainable development: openness, accountability, transparency, ethical behavior, consideration of stakeholders' interests, legality, respect for human rights, zero tolerance for corruption, and avoidance of conflicts of interest.

E Principles of **Environmental** Component of Sustainable Development

- Minimizing impact on biological and physical natural systems
- Reducing the use of natural resources
- Applying environmentally friendly, energy- and material-saving technologies
- Minimizing waste and promoting waste recycling

S Principles of **Social** Component of Sustainable Development

- Ensuring transparent recruitment procedures and equal opportunities for employment
- Fair remuneration and protection of employee rights
- Ensuring occupational safety and preserving employee health
- Individual and professional development of employees
- Implementation of social programs for staff
- Conducting environmental and educational campaigns

G Principles of **Economic** Component of Sustainable Development

- Ensuring the interests of the Sole Shareholder
- Improving the efficiency of business processes
- Allocating funds for the development of advanced technologies in waste management and related industries
- Promoting the creation of new jobs in waste management and related industries

Anti-Corruption Measures

In 2024, no corruption-related offenses involving the Company's officials or employees were recorded.

ЖАСЫЛ ДАМУ

As part of the strategy to improve corporate culture, the following activities were carried out:

1. The Company's Compliance Service, in collaboration with the Human Resources Management Department, developed the Company's Code of Business Ethics. The Code reflects the behavioral standards adopted within the Company, based on its mission and values. These standards aim to ensure honest and fair relationships among employees and partners, as well as compliance with the legislation of the Republic of Kazakhstan and the Company's internal regulations.
2. Quarterly training is conducted for employees on corporate conflict and conflict of interest resolution, the anti-corruption instruction, anti-fraud measures, and proactive reporting.
3. Development and publication of training materials on the internal portal with employee testing to increase awareness and knowledge of existing internal regulatory acts in the area of compliance.
4. Throughout 2024, the Compliance Service continuously monitored changes in anti-corruption legislation to ensure timely response and adherence to requirements.

Internal Audit Service

The mission of the Company's Internal Audit Service (IAS) is to preserve and enhance the Company's value by conducting objective internal audits based on a risk-oriented approach, providing recommendations, and sharing knowledge.

ЖАСЫЛ ДАМУ

1. To ensure the independence and objectivity of internal audit, the IAS is a body of the Company directly subordinate to the Board of Directors and its Audit and Risk Management Committee, and reports to them on its work.

2. In accordance with the requirements of the legislation of the Republic of Kazakhstan, the norms of the Company's Charter, the IAS Regulation, and the Rules for the Organization of Internal Audit in the Company, the IAS, in carrying out its activities, is guided by the International Professional Practices Framework (IPPF), recommended by the global Institute of Internal Auditors.

3. Internal audit planning and the prioritization of audit assignments are carried out on the basis of a risk-oriented approach. All audit assignments were completed in accordance with the International Standards for the Professional Practice of Internal Auditing and the Company's Rules for the Organization of Internal Audit. Based on the results of the audit, the IAS developed appropriate recommendations aimed at improving the systems of internal control, risk management, and corporate governance. The audit objects developed corrective/preventive action plans to eliminate the identified violations.

4. The IAS conducts quarterly monitoring of the implementation of recommendations based on the results of internal audit, external audit, and external controlling bodies. The results of internal audit and information on the implementation of recommendations are reflected in quarterly and annual reports, which are reviewed and approved by the Company's Board of Directors. The reporting is preliminarily reviewed by the Audit and Risk Management Committee of the Board of Directors.

Auditor's Report

The auditor's report of the independent auditor, LLP "SFAI Kazakhstan," dated March 7, 2024, is reflected in the Company's 2024 financial statements.

The full version of the 2024 financial statements is available on the Company's website: recycle.kz
